

Dear **Rev. Weideman**

How are TEASA Member churches doing in the area of Disciple making?

Over the last several years many Church and mission leaders, both locally and globally, have lamented the fact that discipleship is neglected in the way we carry out the Great Commission. Indicators of weak discipleship are everywhere to be seen in many African countries, many of whom are majority Christian. It is difficult to see the impact of Christian salt and light on the values of many of our nations. This begs the question: *how effective are our methods of doing discipleship?*

Over the last three years the Mission Commission of TEASA has started to work on the challenge of Discipleship and held several consultations on it. We are now ready to take this further by being more intentional in tackling the challenge.

Thankfully, this is also a globally felt need and the World Evangelical Alliance has also declared 2020 -2030 a decade of Discipleship.

But we need a baseline.

Help us establish a baseline on the state of discipleship among TEASA member churches, so that together we can have a more realistic picture of the present challenges and so better to plot a way forward.

So kindly invest 5 minutes of your time to complete this [survey](https://www.surveymonkey.com/r/K27L3WN). Or go to <https://www.surveymonkey.com/r/K27L3WN>

Kindly forward the same to pastors and lay leaders in your Denomination and networks, congregations and ministries. With your assistance we believe we can have at least one thousands leaders to do the survey by end of July. The results will be shared and discussed with you in a webinar as soon as a survey is completed.

A report will also be available on the TEASA website – www.teasa.org.
